Hobart, Tasmania, March 8, 11:20 a. m.—On the 19th of February, 1911, we commenced to work our way toward the South, from that day to the 11th of April establishing three depots, which in all contained a quantity of provisions of about 3,000 kilos. One thousand six hundred kilos, including 1,100 kilos of seal meat, were cached in 80 degrees, 700 kilos in 81 degrees and 800 kilos in 82 degrees South latitude.

As no landmarks were to be seen these depots were marked with flags, seven kilometers on each side in the easterly and westerly directions.

The ground and the state of the barrier were of the best, especially well adapted to driving with dogs. On Feb. 15 we had this traveled about 100 kilometers. The weight of the sledges was 300 kilos and the number of dogs was six for each sledge. The surface of the barrier was smooth and fine, with no sastrugi. The crevices were very local and were found dangerous in only two places; for the rest long smooth undulations.

The weather was excellent, calm or a light breeze. The lowest temperature on these depot trips was minus 45 celsius of centigrade (45 degrees below zero Fahrenheit). On the 4th of March, on our return from the first trip beginning on the 15th of Feb., we found out that the Fram had already left us. With pride and delight we heard that her smart captain had succeeded in sailing her further south and there hoisting the colors of his country, a glorious moment for him and his comrades, the furthest North and the furthest South, good old Fram. The highest latitude attained was 78 degrees 41 minutes.

Winter on the Ice Barrier. Before the arrival of winter we had 6,000 kilos of seal meat in the depots, enough for ourselves and 110 dogs. Eight dog houses, a combination of tents and snow huts, were built.

Having cared for the dogs the turn came for us to use our solid little hut. It was almost entirely covered with snow by the middle of April. First we had to get light and air. The lux lamp, which had a power of 200 standard candles, gave us a brilliant light and kept the temperature up to 20 degrees celsius (68 degrees Fahrenheit) throughout the winter, and our excellent ventilation system gave us all the air we wanted.

In direct communication with the hut and dugout on the barrier were workshops, packing rooms, cellars for provisions, coal, wool and oil, a plain bath, a steam bath and observatories.

Thus we had everything within doors if the weather should be too cold and stormy.

The sun left us on the 22nd of April and did not return until four months later. The winter was spent in changing our whole outfit, which on the depot trips was found to be too clumsy and solid for the smooth surface of the barrier. Besides this as much scientific work as possible was done and some astonishing meteorological observations were taken.

Open Water All Winter. There was, very little snow and there was open water close by throughout the winter. For the same reason higher temperature had been expected, but it remained very low.

In five months there were observed temperatures between minus 50 and 60 degrees celsius (58 and 76 degrees below zero Fahrenheit), the lowest temperature on the 13th of Aug. being minus 59 degrees celsius. It was then calm.

On the 14th of Aug. the temperature was minus 58 degrees celsius and there were six meters of wind. The mean temperature for the year was minus 26 degrees celsius (4.8 below zero Fahrenheit).

I had expected hurricane after hurricane, but I observed only moderate storms and many excellent auroras australis in all directions.

The sanitary conditions were of the best all the winter and when the sun returned on the 24th of Aug. he met the men sound in mind and body, ready to set about the task that had to be solved.

Already, the day before, we had brought our sledges to the starting place for our march toward the South. Only in the beginning of September did the temperature rise to such an extent that there was any question of setting out.

First Start for the Pole.

On the 8th of Sept. eight men, with seven sledges, ninety dogs and provisions for four months started Th-

and open crevices. These were apparently mostly filled up, as the glaciers in all probability had long ago stopped moving, but we had to be very careful, never knowing for certain how thick was the layer that covered them.

Our camp that night lay in very picturesque surroundings at a height of 5,000 feet. The glacier here was narrowed in between the two 15,000 feet high mountains, the "Fridtjof Nansen" and the "Don Pedro Christoperson." From the bottom of the glacier rose cone "Ole Engstrand," a big snow cone 13,500 feet high.

Day's Splendid Work.

The glacier was very broken in this comparatively narrow pass. The mighty crevices seemed to stop up from going further, but it was not so serious as it appeared. Our dogs, which up to this time had covered a distance of about 700 kilometers, the last day's very hard work, ran this day thirty-five kilometers, the ascent being 5,600 feet, an almost incredible record.

It took up only four days from the barrier to get up on the vast inland plateau. We camped that night at a height of 10,600 feet. Here we had to kill twenty-four of our brave companions and keep eighteen, six for each of our three sledges. We stopped here four days on account of bad weather. Third of this we set out on the 25th of Nov. On the 26th was a furious blizzard and in a dense snow drift absolutely nothing was to be seen, but we felt that, contrary to expectations, we were going fast down hill. The hypsometer gave us that day a descent of 600 feet. We continued our march the next day in a gale and a dense snow drift and got our faces badly frozen. We could see nothing. We reached that day 86 degrees dead reckoning. The hypsometer indicated a fall of 800 feet.

The next day was similar. The weather cleared a little at dinner time and exposed to our view a mighty mountain range to the east and not far off, only for a moment, and then it disappeared in the dense snow drift. On the 29th it calmed down and the sun shone, though it was not the only pleasant surprise he gave. In our course stretched a big glacier running toward the south. At its eastern end was the mountain range going in a southeasterly direction. Of the western part of it no view was to be had, it being hidden in the dense fog. At the foot of this glacier, the "Devils Glacier," a depot for six days was established, at 86.21 degrees south latitude. The hypsometer indicated 8,000 feet above sea level.

A Splendid Mountain View. On Nov. 30 we began to climb the glaciers. The lowest part of it was very much broken and dangerous. Moreover, the snow bridges were often burst. From our camp that night we had a splendid view over the mountain to the east. There was "Helmar Hansen's Summit," the most remarkable of them all. It was 12,000 feet high and covered with such broken glaciers that in all probability no foothold was to be found. "Oscar Wisting's," "Sverre Hassel's" and "Olav Hjanlands" mountains also lay there, beautifully illuminated in the rays of the bright sun.

In the distance, and only alternately to be viewed in the fog, appeared from time to time "Mount Nielsen," with its summits and peaks about 15,000 feet high. We only saw the nearest surroundings.

It took us three days to surmount the Devils Glacier.

On the 1st of Dec. we left this broken glacier, with holes and crevices without number, with its height of 9,100 feet. Before us, looking in the mist and snow drift like a frozen sea, appeared a light, sloping ice plateau, filled with small hummocks. The walk over this frozen sea was not pleasant.

The ground under us was quite hollow and it sounded as though we were walking on the bottoms of empty barrels. As it was a man fell through, then a couple of dogs. We could not use our skis on this polished ice.

Five Killed in Wreck. Ottawa, Ont., March 9.—Five persons were killed and eleven injured, two seriously, when a Canadian Pacific passenger train was wrecked in a collision with a freight train between Ottawa and Hull, Ont.

Economy looks like an up-hill game when you first begin, and sometimes it is an up-hill game; but it is the ROAD TO PROSPERITY, and if you can persevere in your small economies you will find this out. Your extravagance does not draw interest. Some day you will pay interest on your present extravagance. If you put that money in the BANK NOW, you can some day afford to buy the luxuries you crave without missing the money.

SATURDAY, MARCH 9, 1912.

The ground hog is vindicated.

The south pole has been discovered,
we trust that there will be no differ-
ence of opinion as to who discovered it.

The peerless leader is giving his
democratic friends of the twin cities
and the northwest some pointers and
his presidential attempts surely fit
him for the task. Watch William
Jennings Bryan, he is liable to be in
the limelight yet before the votes
are counted.

A Duluth telegram says an ap-
parently authentic report is in cir-
culation there to the effect that the
United States Steel Corporation in-
tends putting all underground men
in its employ in the Oliver mines on
an eight hour schedule. If a change
of this kind is made it will affect 50,-
000 men now working ten hours.

Assistant Attorney General Janes
informs the Bemidji Sentinel man
that he will not be a candidate for
congress from the Second district, and
added to this bit of political news
the information that "In my travels
about Minnesota I hear more senti-
ment in favor of Taft than Roose-
velt and I think Governor Eberhart
will easily be re-nominated and elec-
ted."

Sauk Rapids has no ordinance cov-
ering the length of time a freight
train may block street crossings and
unless there is a state law covering
the point the people in that town
who are up in arms will be unable
to prosecute the conductor who kept
them waiting for an hour or two sit-
ting in a street car at midnight while
the railroad crew did their switching.
Possibly the conductor was wise to
desert the faulty charter.

Sam Y. Gordon has sent his newspa-
per friends an excellent photograph
of himself and the Dispatch ack-
nowledges receipt of the striking like-
ness. Mr. Gordon is a candidate for
governor and evidently believes it is
policy to let the general public see
how the man who aspires to this
honor looks, and Sam's general ap-
pearance will bear inspection, he is
the best looking man of the three
who are campaigning for that office.

The Little Falls Transcript says
editorially: "It is the general be-
lief among the staunch followers of the
Republican party that the adminis-
tration of President Taft has met
with the hearty approval of the Amer-
ican people and that by virtues of
what he has accomplished in his first
term he is entitled to renomination at
the hands of those who first placed
him in his high office. As the record

of his accomplishments becomes bet-
ter known the popular sentiment in
his behalf is increasing accordingly.
He is a safe and conservative leader
in national affairs which may well
be entrusted to his leadership and
careful guidance. He was chosen to
carry on the various policies of na-
tional importance inaugurated by his
predecessor, Theodore Roosevelt, and
judged by an impartial standard he
has not deviated from those policies.
The people have a great personal lik-
ing for Roosevelt, but they also recog-
nize many admirable traits in the
present incumbent of the White
House which are not Rooseveltian in
character. By virtue of what he
has accomplished while in the office
of chief executive President Taft
should be accorded the courtesy of
the nomination for a second term."

HOSTILITIES TO CEASE

Editor Dispatch:—
Just a word more please.

My good friend Sheets of the Jour-
nal Press comes back with a long ed-
itorial in which he talks long and
irrelevantly, but really says very lit-
tle. The entire article is clearly the
production of a misguided imagina-
tion. There is nothing in it that can
by the widest stretch of the imagina-
tion be construed to be an answer
to my communication of the 5th inst.
All his talk about my conceding this,
that or the other, and his claim that
he has proved this, that, and a few
more things, is purely humbugme
that has not even the merit of plausi-
bility and will not deceive anyone
who has kept in touch with this con-
troversy. The most sensible feature
of this latest production is the en-
tire elimination of the "blood and
thunder" features so characteristic
of his former editorials about "dis-
crimination," "raw deal," "corrup-
tion," "bribery," etc., etc.

This indicates that he now sees
that his position is wholly unten-
able and cannot be sustained or even
justified and it was to this feature
more than any other to which we
took exception as we have no objec-
tion to Mr. Sheets or any one else
criticizing us in a fair and legiti-
mate way.

Since his article is couched in such
conciliatory language and he is evi-
dently sincerely suing for peace, I
will of course accept the proffered
olive branch and consent to a cessa-
tion of hostilities. But, if I were to
make a suggestion by which he might
profit in the future would suggest
that he follow the example of old
Davy Crockett, whose motto is said
to have been: "First be sure that
you are right, then go ahead."

The defendant rests.

Thanking you for the space you
have given me,

Cordially yours,

C. A. KRECH.

There is more Catarrh in this section
of the country than all other diseases
put together, and until the last few
years was supposed to be incurable.
For a great many years doctors pro-
nounced it a local disease and pre-
scribed local remedies and by constantly
failing to cure with local treatment,
pronounced it incurable. Science has
discovered that it is a constitutional
disease and therefore requires constitu-
tional treatment. Hall's Catarrh Cure
manufactured by F. J. Cheney & Co.,
Toledo, Ohio, is the only constitutional
cure on the market. It is taken inter-
nally in doses from 10 drops to a tea-
spoonful. It acts directly on the blood
and mucous surfaces of the system.
They offer one hundred dollars for any
case it fails to cure. Send for cir-
culars and testimonials.

Glorious News
comes from J. T. Curtis, Dwight,
Kan. He writes: "I not only have
cured bad cases of eczema in my pa-
tients with Electric Bitters, but also
cured myself by them of the same dis-
ease. I feel sure they will benefit
any case of eczema." This shows
what thousands have proved, that
Electric Bitters is a most effective
blood purifier. Its an excellent rem-
edy for eczema, tetter, salt rheum,
ulcers, boils and running sores. It
stimulates liver, kidneys and bowels,
expels poisons, helps digestion, builds
up the strength. Price 50 cents.

Where Fashion Reigns

Mrs. Murphy has returned from the Eastern Dry Goods Markets, where
she has spent many days studying the styles and selecting for the patrons of
our Smart Shop, the very newest things out and now our showing will be
something different—exclusive

A big Silk Sale Saturday

A good quality of changeable silk in all colors and we might say \$1.00 a yard and we would consider it a fair price,
but as Mrs. Murphy has made an exceptionally good buy—we are going to offer you this silk Saturday at only
69 cents a yard.

OPTION ON TOWNSITE

Eastern Capitalists Have an Option to
Purchase Holdings of the Iron
Range Townsite Co.

Russell & Barron are representing
eastern capitalists, prominent men of
Milwaukee, Wis., and Chicago, who
have taken an option to purchase the
stock and holdings of the Iron Range
Townsite Co., the corporation which
owns the townsite of Barrows and
numerous buildings, improvements
and other interests in that place.
The townsite embraces 185 acres. To
the original addition has been added
also a First addition.

The eastern men have a certain
period in which to exercise their right
to purchase at a given price and un-
til that time is up no definite infor-
mation can be given out.

Repels Attack of Death

"Five years ago two doctors told
me I had only two years to live."
This startling statement was made by
Stillman Green, Malachite, Col.
"They told me I would die with con-
sumption. It was up to me to try the
best lung medicine and I began to use
Dr. King's New Discovery. It was
well I did, for today I am working
and believe I owe my life to this great
throat and lung cure that has cheated
the grave of another victim." Its
folly to suffer with coughs, colds or
other throat and lung troubles now.
Take the cure that's safest. Price
50 cents and \$1.00. Trial bottle free

A Success

Through the columns of the press
of other cities where the production
has been seen it would seem that
"The Lion and the Mouse" is con-
sidered the strongest play that the
brilliant author, Chas. Klein, has
ever written.

CASCARETS CURE A
BILIOUS HEADACHE

Gently but Thoroughly Cleanse Your
Liver, Stomach and Bowels and
You Feel Great by Morning

You're bilious, you have a throbb-
ing sensation in your head, a bad
taste in your mouth, your eyes burn,
your skin is yellow, with black rings
under your eyes; your lips are
arched. No wonder you feel ugly,
mean and ill tempered. Your system
is full of bile not properly passed off,
and what you need is a cleaning up
inside. Don't continue being a bilious
nuisance to yourself and those who
love you, and don't resort to harsh
physics that irritate and injure. Re-
member that every disorder of the
stomach, liver and intestines can be
quickly cured by morning with gen-
tle, thorough Cascarets—they work
while you sleep. A 10-cent box from
our druggist will keep you and the
nirre family feeling good for months.
Children love to take Cascarets, be-
cause they taste good and never gripe
or sicken. 115

BRAINERD WINS FROM AITKIN

Local High School Basket Ball Team Plays a Fast Game Last Night Winning 24 to 17

All apprehension as to the ability of the Brainerd high school boys to cope with the fast Aitkin team, was fully relieved last night at the auditorium, when Coach Callan's bunch trimmed the visitors by a 24 to 17 score.

The largest crowd of the season turned out to see the game and every spectator was kept at a high pitch by sensational plays and a close score throughout. The first half ended with the score 10 to 6 in favor of the visitors. But in the early part of the second half the locals scored two baskets, making the score 10 to 10. It was then that the excitement ran high. The crowd called for a basket, and Happy Alderman responded with a neat shot from the middle of the floor. Aitkin got excited and fouled three times at this stage. Capt. Purdy tossed the ball neatly into the basket each time, making the score 15 to 10 in our favor. Aitkin came back with two baskets and the score was 14 to 15.

Aitkin made another basket and held the lead, but not long for Alderman got busy and produced three straight baskets and the crowd went wild with joy. Capt. Purdy amused the crowd by his fast playing and acrobatic stunts. The Aitkin coach called a foul on Brainerd, to which Coach Callan objected as it was a plain double foul. And after a short conference both officials agreed to withdraw. Rollie Barron, an old high school star was then pressed in to service and his work was most satisfactory.

After the referee controversy had been settled Alderman tossed two more baskets and the game ended with a score of 24 to 17, with Brainerd on the big end.

FOREST RANGER ITEMS

An Examination of Applicants for Patrolmen on March 21 in Brainerd—Other Notes

There will be an examination of applicants for patrolmen on March 21 at Brainerd.

A meeting of the Minnesota lumbermen, together with the foresters and rangers, will be held in Duluth on March 27. A meeting for the same purpose will be held in Eveleth on March 28.

The different railroad companies will hold a meeting in the near future for the purpose of affecting an organization and will take up the matter of patrolling their different lines and considering the matter of fire protection generally.

In a notice to the public, Forest Ranger J. P. Saunders says: "In burning the small sloughs and meadows in the spring they should be burned when the fire will not run on the up-lands and when the wind is too high. Before leaving the burned area you should see that the fire is all out. Leaving the fire in these places has been the cause of a great many of the forest fires in the past which could have been avoided."

BASE BALL AND BOXING DOPE

Many Players are Entering Their Names on D. A. Peterson's List For Board Meeting

DIRECTOR RYAN, A GREAT FAN

Keller to Box McAlduff—How Moses Ward, Alias the Indian Pitcher Sold a Game

One of the most hopeful signs of the interest taken in base ball this year is the list at D. A. Peterson's, the South Seventh street store keeper. On this document are placed the signatures of all Brainerd athletes who are willing to try to make the Brainerd team and who will play if called upon. This list will be taken to the Little Falls meeting on March 12 and at the board meeting there it will be scrutinized and a record made of it. From this list Brainerd will choose its players for this season, as it may need them. Over 30 have signed.

City Attorney M. E. Ryan accepted the position of director representing Brainerd in the board meetings of the Central Minnesota Base Ball association or league. He said that nothing would give him greater pleasure than to represent Brainerd, for Brainerd, he was certain, would pin the pennant, get the highest batting averages, make a record in base stealing and get about all the glory, etc.

Leslie Bush has had several pictures taken and the Dispatch will soon publish one of them. It shows Bush in an Adonis-like pose, ready to throw a curve ball at the poor photographer whom he was facing. Leslie's uniform shows a big "B" which stands for Brainerd and not Bush as some might suppose.

In a letter from Lake City, Minn., T. Campeau writes to Pitcher Bush: "I saw by the paper that they are going to have a league team up there this season. Is this an every day league? I suppose you will stay with Brainerd. Well, put in a good word for me for a tryout, if you think that there is any show."

In a letter from Moses Ward, alias the Indian pitcher who played with St. Cloud and Brainerd, the Red Lake, Minn., man says: "You know me, Bush. I am the Indian pitcher. I sold a game once in St. Cloud. You know me. I am going to try out in northern league base ball in Eau-Claire, Wis.

"Say, Bush, go and look at the City hotel. I left a suit case there and I have some gloves there in that case. Please send it to me. Say, ask for me to come and stay in with the club next spring. If I don't get it, I am coming over any way about in April."

Jack Keller has handed the Dispatch the following answer to McAlduff's acceptance of his challenge recently made: "In answer to Harry McAlduff's acceptance of my challenge I would like to say that I will box him in three weeks or a month from now (March 6) for any side bet he wishes and all of the gate receipts at any place he desires, but preferably this city. I have met some pretty good men and think I can give him a run for the money."

BRAINERD MAN WILL ORATE

W. W. Barron to Lecture to the People of International Falls on St. Patrick's Day

The International Falls Press says: "On Sunday evening, March 17th, W. W. Barron, attorney of Brainerd, will deliver a lecture at the city hall under the auspices of the Catholic church. The writer has heard him speak once before and ventures to say that he shows every evidence of great oratorical power. It is a rare treat to hear a speaker commandingly use the balanced sentence as Mr. Barron can with the utmost power and dignity. The band will delightfully render national airs and amateur vocalists will with graceful art make life long pleasant at the concord of sweet sound. Tickets may be had from Rev. P. J. Kileen or at the door on the evening of the 17th of March."

TO ENFORCE MINING LEASE

Vicala Iron Company Claims Owners Refuse to Carry Out Their Contract to Make Lease

The Duluth Herald says the Vicala Iron company has started suit in the district court against Philip Z. Mallen and his wife, Marie Mallen, to enforce the execution of a mining lease on which the company claims to have an option.

The Mallens, it appears, own eighty acres of valuable mining land in section 17, township 46, range 29, on the Cuyuna range southwest of Crosby. It is claimed that on September 3, 1910, the Mallens, for a consideration of \$800, gave A. L. Agatin the right to explore the property for iron and also an option for a lease. Mr. Agatin, it is said, prosecuted the work for eighteen months and spent \$18,000 in the work.

Valuable iron deposits were found. Mr. Agatin sold his right to the option to the Vicala Iron company and it is claimed that the Mallens have refused to execute the lease.

SUNDAY SCHOOL CONVENTION

Union Services Will be Held Tomorrow Afternoon and Evening Offering Fine Program

PROF. A. M. LOCKER TO SPEAK

Afternoon Meeting at 1st Cong. Church; Evening at 7th St. Norwegian Lutheran

Well laid plans to make the Sunday school convention in connection with the Sunday schools of Brainerd and Crow Wing county a success have been formulated and the Sunday school workers are looking forward to much good being reaped therefrom.

It is expected that quite a large delegation will be present from several of the county Sunday schools to learn what they can from the Sunday school experts who are on the programs. The list of themes selected by the program committee are modern and those in charge expect that the Sunday school workers of the city will take advantage of attending the services.

The evening service will be held at the Seventh Street Norwegian Lutheran church, and Professor A. M. Locker, of St. Paul, is down for the principal address. Professor Locker is a teacher of teachers and is considered by the State Sunday school association one of its most efficient workers, and is president of the state society, having been elected several times to that office unanimously. A fine musical program will intersperse the literary and spiritual part of the program. The following is the program and places at which the convention will be held:
